Here's how to add/update your location information:

- Simply log in to the AMI jukebox operator site: www.amientertainment.net, click on the **Locations** tab and then the **Bulk Edit Locations** button.
- **Entering New Location Information** - Locations that are missing information are highlighted in red. To make it easier to see just those jukeboxes that need location information, you can check the box at the top titled **Show Only Jukeboxes Missing Location**. It is important that the information you provide is valid (be sure to include the name of the location, address, city, state and zip). Once you have entered this information for a jukebox, click on the **Save Changes** button before continuing on to the next jukebox.
- **Updating Registered Location Information** - **If you have already given us location information, you are automatically entered into the sweepstakes, but please verify your location information.** Simply review all of the location information listed on the **Bulk Edit Locations** screen. If you see any location information that needs correction, simply type in the revised information and click on the **Save Changes** button. It is important that the information you provide us is valid (be sure to include the name of the location, address, city, state and zip).

The winner will be chosen at random by AMI Entertainment Network on Monday, October 4th. Sweepstakes Rules and Regulations are attached.

Valid location information will be verified when the location is chosen. AMI will visit the location to confirm the address and the jukebox ID.
